We have performed the procedures enumerated in this report pursuant to the request of Defeasance Consultant, LLC and Commercial Mortgage Servicer as servicer for the Registered Holders of Morgan Stanley Capital I Inc., Commercial Mortgage Pass-Through Certificates, Series 2016-MS9 ("Series 2016-MS9"), in connection with the defeasance of a loan made by MS Real Estate Securities Inc. (the "Lender") on August 1, 2014 (the "Loan") to the Borrower. The Loan was securitized and transferred from the Lender to Bank of America, National Association as Trustee for Series 2016MS9.

The procedures were performed solely to assist the addressees of this report in evaluating the mathematical accuracy of certain schedules prepared by the Defeasance Consultant which indicate that the cash deposit and Government Securities (defined herein and identified in Exhibit A-2) deposited into the Pledged Collateral Account (the "Collateral Account"), established on January 25,2019 , will be sufficient to pay the scheduled payments of interest and principal related to the Defeased Loan up to and including the maturity date of August 1, 2021 (the "Scheduled Defeasance Payments") and qualify as substitute collateral to obtain the release of the property from the lien of the Security Agreement.

The procedures we performed are summarized below:

1. We read the Promissory Note and amortization schedule relating to the Loan, a copy of each which was provided by Commercial Mortgage Servicer to obtain the original amount of the Loan, the payment dates and amount for the Loan, the interest rate on the Loan, the outstanding principal balance of the Loan and the maturity date of the Loan. This information was used to compute the defeasance amounts required for defeasance of the Loan.
2. We independently calculated the current principal balance of the Loan on Exhibit A-4 by assuming interest only payments from September 1, 2014 through August 1, 2016 and amortizing the Loan assuming an uninterrupted regular payment stream of \$96,404.01 on each payment date from September 1, 2016 through August 1, 2021 (the "Maturity Date"). This amortization schedule assumes no additional principal, other than principal paid through the amortization, has been or will be paid on any date until the Maturity Date.
3. We independently calculated the future payments due under the Loan attached hereto as Exhibit A-3 in conjunction with the defeasance through the Maturity Date. In addition, we confirmed that August 1, 2021 is the Maturity Date as provided in the Loan Document. The monthly payments are due on the first day of each calendar month (herein referred to as the "Payment Date") or, if such Payment Date is not a Business Day (as hereinafter defined), on the first business day preceding the Payment Date as shown on Exhibit A3. We have determined that the receipts from the government securities will be received on a day which is on or prior to the Payment Date or, if such Payment Date is not a Business Day, on or prior to the first preceding Business Day. Business Day is defined as a weekday that is not a federal holiday. In determining what constitutes a federal holiday, we have relied on information published by the U.S. Office of Personnel Management with respect to the federal holidays extending through 2025.
4. We obtained the list of United States Treasury Bills (the "T-Bills") and Notes (the "T-Notes") and Federal Home Loan Bank Notes (the "FHLB (collectively, the "Government Securities") listed on the Exhibit A-2 attached hereto, which Government Securities have been purchased for the account of the Borrower. We compared the Government Securities to the securities on the Statement of Public Debt of the United States and the Bloomberg L.P. security displays to determine if any of them were callable and determined that none of the Government Securities are callable prior to maturity. The Government Securities are "Government Securities" within the meaning of Treasury Regulation Section 1.860G-2(a)(8)(ii). In addition, we determined that the FHLB are "Consolidated Obligations" of the twelve Federal Home Loan Banks, which are jointly and severally responsible for the debt.
5. We independently calculated (i) the receipts from the Government Securities, and together with a cash deposit of $\$ 301.26$, determined that they will be sufficient to make the monthly payments with respect to the Loan through the Maturity Date and to pay the outstanding principal balance on the Maturity Date and (ii) the receipts from the Government Securities (except for amounts not to exceed $\$ 1,000$ ) will not be retained as cash balances in the escrow account for more than four months until used for Loan payments.
6. We compared the terms (i.e., the principal amount, interest rate, issue date, maturity date and purchase price) of the Government Securities to be acquired on January 25,2019 , as summarized herein, to the final trade confirmations (provided by the Consultant and attached to this report); we found the terms to be in agreement.
7. We independently calculated and compared in each year ended December 31 up to and including the year of the Maturity Date (i) the interest earned on the Government Securities (including original issue discount interest and using the actual purchase price of the Government Securities) and the market discount on the Government Securities (defined as the difference between the actual purchase price of the Government Securities and the outstanding balance of the Loan adjusted for the initial cash deposit) (the market discount is calculated and allocated to each Government Security on Exhibit B-1); and (ii) the interest due and payable on the Loan for the corresponding period. Based upon the comparison as shown on Exhibit B of the report, we determined interest income (including the applicable market discount, but exclusive of any reinvestment income) will not exceed interest paid in such tax year, except for the year in which the Maturity Date will occur.

Based on performing the aforementioned procedures, we have found that those schedules provided by the Defeasance Consultant when compared to those schedules prepared by us (attached hereto as Exhibits), are arithmetically accurate and reflect, based on the assumptions set forth herein, that there will be sufficient funds available in the Collateral Account to pay the Scheduled Defeasance Payments on a timely basis.

This engagement was performed in accordance with consulting service standards established by the American Institute of Certified Public Accountants (the "AICPA"). The sufficiency of these procedures is solely the responsibility of the specified users of the report. We make no representation regarding the sufficiency of the procedures summarized above, either for the purpose for which this report has been requested or for any other purpose.

The results of our independent calculations with respect to the proposed transactions are summarized in the accompanying exhibits. The original computations, along with related characteristics and assumptions contained herein, were provided by the Defeasance Consultant on behalf of the Borrower. We relied solely on this information and these assumptions and limited our work to performing those procedures set forth above.

This report is issued solely for the information of, and assistance to, the addressees of this report and is not to be quoted or referred to in any document, except for the required closing transaction documents. Additionally, this report should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under the terms of our engagement, we have no obligation to update this report because of events or transactions occurring subsequent to the date of this report.
